

SCS Embedded Tech TO DISTRIBUTE FORTASA MEMORY SYSTEMS' SOLID STATE STORAGE SOLUTIONS

Palo, Alto, CA – April 4, 2014 – Fortasa Memory Systems, Inc., a leader in high reliability solid state storage products, today announced it has signed a global distribution agreement with SCS Embedded Tech, the value added solutions provider to the high tech embedded component users in the electronics industry. Under the terms of this agreement, SCS Embedded Tech will distribute Fortasa's complete range of Flash based Cards, SSDs and Modules to the strategic customers world-wide. The agreement will be effective immediately.

Flash memory based storage devices have become the storage medium of choice for data critical applications. Offering the widest portfolio of high-performance, industrial grade solid state drives (SSD), Flash Cards, Module and Chip level devices, Fortasa's products benefit a broad range of Industrial, Military and OEM customers.

"The exciting partnership that we are entering into with Fortasa Memory Systems could well turn out to be one of the most successful client engagements in the history of our company. Fortasa's expanding suite of storage solutions will provide great value to many of the 2,000+ customers that we currently do business with. And SCS's long history of selling memory, with our resultant deep market knowledge, will serve Fortasa's growth objectives extremely well at the OEM users of high performance, high reliability storage solutions. In turn, having the opportunity to add the Fortasa line to SCS's quality focused client portfolio will further help to establish SCS as the premier valued added, embedded tech supplier in North America. We could not be more delighted with the potential symbiotic rewards of this new partnership." said Rachel Rathsburg, General Manager of SCS Embedded Tech. "The SCS Agreement dramatically expands our sales channel reach. This beneficial partnership will extend our brand and product offering to a number of strategic customers that value Fortasa Industrial Solid State Storage products and SCS Embedded support services." said Samuel Nakhimovsky, General Manager of Fortasa Memory Systems, Inc. "With the SCS Embedded Tech distribution agreement, we look forward to mutually beneficial business relationship to expand the global reach for our products to the OEM and embedded marketplace."

About Fortasa Memory Systems, Inc.

Fortasa Memory Systems is a leading provider of Solid State Storage Solutions uniquely focused to meet the high-performance, high reliability needs of original equipment manufacturers (OEMs). Headquartered in Silicon Valley, California, Fortasa offers the widest product portfolio of storage solutions supporting multiple bus interfaces and form factors.
